To Whom It May Concern,

It is with great pleasure that I have been asked to write a letter of reference on behalf of Alec Tramell. I have known Alec for approximately 15 years, first as a neighbor and subsequently as a computer expert that has assisted my former and current law firms with computer issues. Mr. Tramell has provided programming, information tagging, as well as other general computer work including helping out at a moment's notice on various computer problems that have arisen in my business.

Mr. Tramell has always responded immediately to any requests that I have had regards to computer issues, and has been professional, knowledgeable, and extremely efficient in figuring out what was needed and addressing these issues in resolving the problems. Alec is one of the best computer experts that I have run into in my 30 year career and I would highly recommend him to your organization as a computer expert. In addition, Alec is always been very fair and reasonable in his billing, and traditionally delivers more than the compensation he receives.

If you have any questions or need more information, please feel free to contact me at the above address, e-mail or telephone number.

Sincerely yours

Randall W Richards
